Eee Slate™

Data Sheet - **Eee Slate B121**

ASUS Eee Slate B121 - The world's most powerful tablet device

Windows® 7 Professional

Tough touch screen clad in super-strong Corning® Gorilla® Glass

Visually stunning and incredibly tough Corning® Gorilla® Glass provides exceptional damage resistance against the drops, bumps and scrapes of everyday use. It's cool to the touch and cleans easily – making it perfect and highly responsive to enabling even the most sophisticated touch applications. The glass panel is reinforced using an ion exchange process that forms a compression layer on the surface of the glass. This armor prevents damage and flaws, while remaining compliant with the Restriction of Hazardous Substances Directive (RoHS).

Tight TPM security keeps data safe

Professionals can rest assured that their valuable data is protected with the Eee Slate B121's Trusted Platform Module, or TPM, which safeguards confidential data by hardware-encrypting files. This helps defend against attacks by hackers looking to capture passwords and encryption keys to sensitive data. TPM is a widely-recognised industry standard that has achieved a solid reputation in the field of information security and confidentiality.

Data Sheet - Eee PC™ T101MT

Eee PC™ Touch Series go Multi-touch!

Fun at Your Fingertips

The Eee PC™ T101MT's multi-touch functionality makes interacting with the computer so intuitive and effortless, it encourages users to get creative. With its support for Windows 7 Multi-Touch gestures, virtually every task can be performed with a tap, drag, pinch or flick. Photos can be zoomed into, rotated and repositioned with the greatest of ease. Games can be controlled in a much more interactive way, and pages of documents can be flipped with fingers—just as they would be with a real book.

Intuitive touch software

The Eee PC™ T101MT's unique software applications, allow users to perform a myriad of fun tasks with their fingertips, such as touching up photos, creating photo albums, leaving handwritten desktop memos for loved ones, and sketching cartoons or custom emoticons.

A Smooth Writing Experience

Equipped with a 256-level pressure sensor, the Eee PC™ T101MT's crisp and responsive 10.1" multi-touch screen reproduces handwriting beautifully and accurately, regardless of whether a finger or the bundled ergonomically-designed stylus is used. Handwriting on a computer has never felt more natural.

Massive Storage for Massive Multimedia Collections

The Eee PC™ T101MT is fully equipped to handle the large amounts of memory that digital media consumes. Boasting a 320GB HDD and 500GB* of online ASUS WebStorage—a total of 820GB—the Eee PC™ T101MT provides ample storage for users' movies, music and photos.

Data Sheet - Eee PC ASUS-LAMBORGHINI VX6

The sleek ASUS-Lamborghini Eee PC VX6 ultraportable has a dual-core Intel® Atom™ processor and NVIDIA® ION™ 2 graphics.

Intel® Dual-Core processing power

The Intel® Atom™ D525 processor has two 1.8GHz cores, each with Hyper-Threading Technology. Its four parallel processing threads provide improved performance with multi-threaded software and faster response times for more demanding applications.

60% faster graphics engine

NVIDIA® ION™ 2 graphics provide incredible graphics performance that's up to 60% faster than that of previous-generation NVIDIA® ION™ graphics, for even smoother gaming. NVIDIA® Optimus technology automatically optimises graphics performance to maximise battery life, while onboard hardware decoding ensures silky smooth 1080p HD video playback.

Audio designed by Bang & Olufsen ICEpower®

High-quality Bang & Olufsen ICEpower stereo speakers and SRS Premium Sound deliver superlative sound quality for movies, music and gaming.

USB 3.0 comes as standard

USB 3.0 can transfer data from compatible devices up to 10 times faster than USB 2.0 and recharge mobile devices in record time, even when the Eee PC VX6 is switched off.

The latest Bluetooth 3.0 support

Full Bluetooth 3.0 support allows low power wireless data transfers from compatible devices at speeds up to 24Mbit/s — perfect for speedy music, video and photo synchronisation with mobile devices.
